

Word Study: Unit 6
spelling: review of units 1-5
vocabulary: in class review

In word study this week, we will be reviewing Units 1-5 (all spelling words that have been introduced thus far). This means that students will only encounter words that they have studied before. Our words will follow a variety of patterns including short and long vowel sounds.

Students should study all of the assigned words below. They will be *tested on only 18* of them this Friday. Students will not know which 18 until test time, so I recommend reviewing them all.

Vocabulary

Since this is a review week with 25 spelling words, students will not have vocabulary words to study this week. Rather, we will be reviewing vocabulary words from the past 5 weeks in class. We will *not* have a vocabulary quiz on Friday.
