

**Word Study: Unit 30**  
**spelling – review of units 25-29**

In word study this week, we will be reviewing Units 25-29. This means that students will only encounter words that they have studied before. Our words will follow a variety of patterns including prefixes and suffixes.

Students should study all of the assigned words below. They will be *tested on only 18* of them this Friday. Students will not know which 18 until test time, so I suggest reviewing them all.
